PRANAV RAJ K P V

MERN Stack Developer

+91 7012588613 | kpvpranavraj2305@gmail.com | LinkedIn | GitHub | LeetCode

PROFILE SUMMARY

Full-stack development trainee specializing in MERN stack with hands-on experience in JavaScript, Node.js, Express.js, React.js, and MongoDB. Expertise in building scalable backend systems using clean architecture. Proficient in creating responsive frontend interfaces with modern UI tools. Passionate about developing user-friendly applications and contributing to innovative web solutions.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript
Frontend: React.js, Redux, Tailwind CSS, Bootstrap, HTML5, CSS3, WebSocket
Backend: Node.js, Express.js, RESTful APIs, MVC Architecture, Clean Architecture, Monolithic Architecture
Databases: MongoDB, PostgreSQL
Tools & Others: Git, GitHub, Postman, VS Code, Figma, AWS (Basics), Digital Ocean, Firebase, Data Structures & Algorithms

EXPERIENCE

Junior Software Developer — *May 2023 – July 2024*
AD Info Solution, India — Certificate
Kannur, Payyannur

Developed scalable web applications using Express.js and React.js. Designed and implemented RESTful APIs. Collaborated with team members to resolve bugs and successfully complete assigned project modules.

PROJECTS

BuildErp – Construction ERP Solution — Live Link | GitHub

Comprehensive ERP platform designed for construction companies to manage project budgets, timelines, material purchases, and labor attendance. Features real-time notifications for budget or time overruns and live chat for seamless communication.

- Implemented live project tracking and progress monitoring.
- Managed material procurement, labor attendance, and multi-stage budgeting.
- Enabled real-time communication using **Socket.IO**.
- Deployed on **AWS** for scalability and reliability.

Technologies: Node.js, Express.js, TypeScript, MongoDB, React.js, Tailwind CSS, Redux, Clean Architecture, AWS, Socket.IO, JWT, Google OAuth.

Taste Trial – Food Delivery Application — Live Link | GitHub

Full-stack food delivery platform enabling restaurants to list menus while allowing users to browse, order, and track meals online.

- Developed cart, wishlist, order tracking, and secure authentication.
- Integrated **Razorpay** payment gateway.
- Built admin panel for menu and order management.
- Deployed using **NGINX** on **AWS EC2** with **PM2**.

Technologies: Node.js, Express.js, JavaScript, MongoDB, EJS, Bootstrap, AWS EC2, NGINX, PM2.

MINI PROJECTS

Eventify – Event Management System GitHub

Event management platform supporting event creation, user registration, QR-based attendance tracking, and food service management.

- Implemented QR-based attendance system.
- Followed clean architecture for maintainable code.

Technologies: Node.js, React.js, MongoDB, Clean Architecture.

EDUCATION

MERN Stack Development *2024 – Present*
Brototype, Kochi Certificate

Python Development *2022 – 2023*
Gtech, Payyannur, Kannur Certificate

Bachelor of Science in Mathematics *2019 – 2022*
Kannur University | CGPA: 8.44 Certificate
